APPENDIX 3 - LOCAL GOVERNMENT ACT 1999 (SA) ......................................................................... 16
1. **Purpose**

1.1 The Community Engagement and Consultation Policy (the Policy) provides the framework to engage and consult with our community such to enable their participation in and contribution to Council’s decision making.

1.2 The Policy fulfils the requirements of Sec 50 of the Local Government Act 1999 (the Act).

2. **Scope**

2.1 The Policy applies to Elected Members, staff, contractors, facilitators, agents and consultants acting on behalf of Council or under delegated authority.

3. **Definitions**

3.1 **Community** - Includes all who live, work, study, own property, conduct private or government business, visit or use the services, facilities and public spaces and places within the City of Prospect area.

3.2 **IAP2** – International Association of Public Participation, (refer to [www.iap2.org.au](http://www.iap2.org.au)).

3.3 **Stakeholder** - Is a person, group, or organisation that has a direct or indirect stake in an issue as they may affect or be affected by the Council’s actions, objectives, policies and/or decisions.

4. **Legislative and Corporate Requirements**

4.1 The Policy has been developed in accordance with the Act.

4.2 Section 50 of the Act requires the Policy to identify steps Council intends to take where the Act requires consultation and provides the steps to vary according to the class of decision required to be made by Council.

4.3 Sections of the Act which refer to consultation requirements are summarised in Appendix 3.

4.4 The Policy is to be read and implemented in conjunction with Council’s other relevant policies, strategies, documents and other legislative requirements, including:

4.4.1 Disability Discrimination Act

4.4.2 Freedom of Information Act

5. **Principles**

5.1 The Policy defines the principles underpinning Council’s community and stakeholder engagement activities and the methods Council will use to engage and consult with the community.
5.2 Seek early engagement, providing the opportunity of preliminary involvement from the community in setting consultation parameters.

5.3 Communicate clearly the objectives of the engagement process and provide community members with all available, relevant and easily understood information as part of the consultation engagement process to ensure informed discussion.

5.4 Council will take into account the views and aspirations of the community and stakeholders and balance those with other influences, such as budgetary constraints, legislative requirements, alignment with State and Federal Government strategic objectives and will make decisions within the context of Council’s adopted Strategic Plan.

5.5 Council’s approach to community engagement is predominately based on the spectrum of engagement levels and activities as advocated by the International Association for Public Participation (IAP2).

The five levels of engagement are:

**Inform → Consult → Involve → Collaborate → Empower**

For more detail of IAP2 five levels of engagement refer to Appendix 1.

5.6 The Policy does not apply to Development Applications, as the Development Act 1993 has its own set of consultation requirements.

5.7 **Identify and acknowledge each is different**

5.7.1 Stakeholder and community group identification and analysis is integral to the engagement planning process.

5.7.2 Understanding and managing the relationship between stakeholders and community members increases the likelihood of achieving desired overall outcomes.

5.7.3 The level and style of engagement with the community and stakeholders will vary depending on the interest in the matter, the number of people potentially affected by Council’s decision, the resources available, budgetary constraints and legislative requirements.

5.8 **Be open and inclusive**

5.8.1 Encourage involvement from a wide cross-section of the community using engagement processes that are accessible and inclusive, taking into account barriers to access information due to language, cultural issues, disabilities and poor access or use of technology.

5.8.2 Recognise community participation as a right for all citizens and an integral component of informed decision making.

5.8.3 Operate under the key value of openness and commitment to ensure the community is well informed.

5.8.4 Define the parameters of the consultation process for each specific topic, and identify what aspects of the decision can be influenced by community involvement.
5.8.5 Communicate the parameters of the engagement process to participants from the outset, including legislative requirements, Council’s sphere of influence, conflicting community views, policy frameworks, context.

5.8.6 Approach engagement from an impartial perspective, free from bias toward any group.

5.8.7 Keep records and provide feedback concerning decisions made as a result of consultation. Reports to Council that provide details regarding information received from the community as part of community engagement programs are part of the public record and accessible by all.

5.9 **Skill and resources**

5.9.1 Ensure sufficient timeframes and adequate resources are allocated to engagement processes.

5.9.2 Recognise the skills required to undertake community engagement and provide staff with opportunities for further training and skill development.
6. The Decision Making Process

6.1 The following diagram identifies the various stakeholders Council will consult, based upon an assessment of to whom the issues are considered to be relevant. In some cases the relevant consultation group will include stakeholders from more than one sector, depending upon the issue being considered and to maximise community involvement in local decision making processes.

**VARIOUS STAKEHOLDERS – INFLUENCING THE OUTCOME**

6.2 Consultation is an important dimension which informs and enhances Council's decision making process.

6.3 Regular reviews and evaluation of the Policy will ensure ongoing improvement in the way it involves the community in its decision-making processes.

7. Engagement and Consultation Methods

7.1 The level of community engagement and consultation methods undertaken relates directly to the level of community involvement required and should always be appropriate to the nature, complexity and impact of the issue, plan or strategy. In some cases requirements may be imposed by the Act and those should be considered the minimum engagement level under the policy.

7.2 Council must ensure its engagement processes are appropriate, accessible, well-planned and adequately resourced.
7.3 The timing of community engagement activities should take into account key dates, eg school holidays, special events, significant holidays, etc to ensure that maximum opportunity is given to encourage community input.

7.4 Recognise there is diversity in the activities across Council and the type of engagement undertaken should vary accordingly.

7.5 Ensure all residents receive regular information regarding Council’s achievements, objectives and performance.

7.6 Inform and notify the community of major issues which may affect them and give the community adequate notice and opportunity to comment.

7.7 A range of communication and consultation techniques will be considered in relation to each topic. A number of examples are listed in Appendix 2 but should not be regarded as a comprehensive list.

8. Process for Community Engagement and Consultation

8.1 The following process will be implemented when Council determines community engagement or consultation be undertaken:

8.1.1 Identify affected community members relevant to the consultation topic.

8.1.2 Decide the key messages to be delivered to affected community members.

8.1.3 Identify the parameters of the consultation initiative, that is, which aspects of the decision can be influenced.

8.1.4 Identify a range of appropriate options for communicating information to stakeholders and inviting involvement – “the communication strategy”.

8.1.5 Identify contact person(s) and contact mechanisms for interested parties to obtain further information.

8.1.6 Identify timeframes relevant to the consultation initiative. Council will aim to provide at least 2 weeks notice of any consultation forums or opportunities, and will ensure a period of 21 days is allocated from the date of inviting involvement to the final closing date for submissions (unless a lesser or greater timeframe is dictated via legislative requirement).

8.1.7 Determine who is responsible for:

(1) Implementing the communication and consultation strategy.

(2) Reporting to Council on outcomes.

(3) Providing feedback about decisions to participants.

(4) Ensuring appropriate records are kept.
9. **Consultation Categories**

9.1 The Policy specifies three levels of activity designed to suit all consultation requirements, ranging from the most basic public notification to a major project or issue of community wide significance.

9.2 Each level specifies the minimum statutory requirements relating to community consultation and exceeds the requirements with a mixture of activities that may or may not be required.

9.3 It is Council's prerogative to establish the level of consultation required when considering a subject requiring community consultation. The level will need to reflect the minimum statutory requirements relating to that subject.

9.4 The Policy will be applied to any matter where consultation is required by legislation, Council Policy or when Council considers this to be appropriate.

9.5 Council will generally undertake consultation over and above statutory requirements for consultation, however in doing so will not be inconsistent with such requirements.

9.6 For all Level 2 & Level 3 consultation matters, Elected Members will determine the consultation level and which of the elements within that level will be undertaken. For Level 1 consultation, the Chief Executive Officer (or delegates) will be responsible for making a determination regarding level and elements therein.

9.7 A good consultation strategy requires a certain degree of flexibility to suit the specific situation. While setting out minimum standards, each activity level reflects this need by not being too prescriptive. **Appendix 2** indicates which level may apply for certain activities. (These are examples only and should not be regarded as a comprehensive list).

9.8 The consultation process option for each level is set out in **Appendix 2**. Consideration of the Community Engagement Matrix tool below (page 8) combined with **Appendix 2** is designed to assist with the selection of an appropriate level of engagement. The matrix below confirms the higher the level of perceived political sensitivity, community impact and/or complexity, the higher the level of engagement and consultation required.
10. Community Engagement Matrix

11. Review and Evaluation

11.1 City of Prospect reserves the right to review the elements of the consultation process to suit the requirements of any particular issue.

11.2 The Policy will be reviewed in line with Council’s Corporate Governance Framework.

12.1 The Policy is available for public inspection on Council’s website www.prospect.sa.gov.au (go to: Council - Documents - Policies and Procedures) and from Customer Service at the Civic Centre, 128 Prospect Road, Prospect SA 5082 and at the Library 1 Thomas Street, Nailsworth.

City of Prospect's Engagement Levels and Activities

The following table (Appendix 2) provides the consultation process, a list of options and techniques for each level of community engagement, at City-wide and local level. Throughout the process of community engagement, there is likely to be movement back and forth along the table as the plan is implemented and/or before Council makes a final decision.

| Public Consultation Policies | 50 | Requirements for preparation, adoption and alteration to Council’s public consultation policy.  
- Policy must set out steps that Council will follow in cases where the Act requires the Council to follow its public consultation policy.  
- Policy may also set out steps to follow in other cases involving council decision making.  
- Steps may vary according to the classes of decisions within the scope of the policy, but must provide persons with a reasonable opportunity to make submissions in relevant circumstances.  

Section 50 (4) sets out minimum steps that must be provided for in a public consultation policy as follows:  
- publish notice describing the matter under consideration in a newspaper circulating within the area, and inviting submissions within stated period (at least 21 days).  
- consider by the Council of submissions made in response.  

Section 50 (6) requires the Council before it adopts, substitutes and/or alters a public consultation policy, to:  
- prepare a document that sets out its proposal; and  
- publish in a newspaper circulating throughout the State and a newspaper circulating within the area of Council a notice of the proposal inviting submissions within a minimum period of 1 month; and  
- consider any submissions received, unless the alteration is of minor significance.  

Code of Practice – Access to Meetings and Documents | 92 (5) | Before a council adopts, alters or substitutes a code of practice under S 92 it must follow the relevant steps set out in its public consultation policy.                                                                                                                                                                                                 |
