## Preparing for the future

Council's draft Annual Business Plan for 2019-2020 is being finalised and is a staged approach to achieve our Strategic Plan to 2020 and Long Term Financial Plan 2019-2028.

The draft Plan is currently being reviewed by key Council staff and Councillors to achieve and maintain financial sustainability, while providing great service to our growing community.

The draft Annual Business Plan and Budget will soon be open for public comment, and we encourage our community to get involved and have your say. Keep an eye on our website in the coming weeks for more information. [www.prospect.sa.gov.au](http://www.prospect.sa.gov.au)

## What do you think?

We are seeking our community's input into a wide range of decisions and policies and we would love to hear your thoughts!

If you would like to be part of our e-panel and shape the future of City of Prospect, please email your details to [admin@prospect.sa.gov.au](mailto:admin@prospect.sa.gov.au)

## Local services on the go

Have you downloaded the My Local Services App? The app delivers local information on events and nearby facilities, bin collection reminders, and a reporting feature for issues like illegal dumping and graffiti removal. It's a fantastic app that gives you easy access to information on your phone.

The free app can be downloaded on iPhone and Android. Search "My Local Services" in the App Store or the Play Store.

## Our local heroes

2019 Award Recipients – Rick Whitehead, Mayor David O'Loughlin, Darcy Maney, and David Kilner

**Nominations were sought in October 2018 for our 2019 Citizen of the Year, Young Citizen of the Year and Community Event of the Year. The awards were proudly presented to the following recipients on Monday, 21 January at our Citizenship Ceremony.**

**David Kilner was awarded the 2019 Citizen of the Year Award.** David is a well-known Prospect resident who generously shares his expertise and passion for local history. A 1986 Citizen of the Year Award recipient, David once again has been awarded for his more recent roles as the convenor of Prospect Local History Group since its inception in 2005. David is a strong advocate for the preservation and promotion of history in the Prospect area, David has led and encouraged the group in its research and subsequent publishing of over 20 publications. David chairs the monthly meetings, delivers talks on Prospect's history, and is currently working on producing a new history book of Prospect for the sesquicentenary (150 years) of the proclamation of Prospect in 2022.

**Darcy Maney was presented with the 2019 Young Citizen of the Year Award.** Darcy Maney is a dynamic young professional with a passion for volunteering, who is very community spirited, enthusiastically giving her time and expertise to City of Prospect community events and at key events throughout Adelaide. Most recently, Darcy was actively involved with our popular Spring Fair held at Broadview Oval. Darcy, at just 22, is the epitome of an outstanding volunteer for our Council, who genuinely cares about the success of an event and those involved. Darcy truly

understands what it takes to organise and deliver a successful community event and is a leader in positive teamwork. She has the strong foundation skills for a career in event and tourism management.

The fourth Annual Great Adelaide Ukulele Picnic was presented with the **2019 Community Event of the Year Award**. It's a family-friendly event that attracts a large number of both local Prospect residents and those from adjoining suburbs and the wider region. The Great Adelaide Ukulele Picnic, a fundraiser for local charities, is now an established annual event that has found its new home in Prospect's St Helens Park. Held in December each year, it unites the growing South Australian ukulele community of over 400 participants.

We are also very proud that Eleni Glouftsis, our recipient of the 2014 Young Citizen of the Year Award, is pursuing her dreams in professional AFL umpiring and continues to be recognised as redefining the role of women in sport. We commend and congratulate Eleni for receiving the **2019 South Australia Young Australian of the Year**. Eleni left Adelaide in late-2013 as she won a three-year scholarship to live and train in Melbourne with the Australian Football League as part of the umpiring department's Female Pathway Program. City of Prospect has taken great pride in watching Eleni follow her dreams.

We are also very proud that our 2018 Citizen of the Year, Dr Robert Irving, was also awarded a **commendation for the State Citizen of the Year** and also a **nominee for the 2019 South Australian Senior of the Year** for his ongoing dedication and commitment towards helping Aboriginal remote communities in the Anangu–Pitjantjatjara-Yankunytjatjara lands in South Australia, Western Australia and the Northern Territory.

### Our VIPs (volunteers in Prospect)

**City of Prospect acknowledges the significant impact volunteers make in our local community. They generously give their time to ensure the sustainability of our community in areas of environment, sport, welfare, emergency services, education and cultural vibrancy within our City.**

National Volunteer Week is held from 20 – 26 May 2019 and the theme for this year's celebration is 'Making a world of difference' #NVW2019.

**If you are a volunteer, please accept a big heart felt thank you for the work you do.**

We are committed to investing in volunteering and in developing innovative ways to link residents wishing to engage or undertake volunteer work in the community with those organisations who are providing opportunities for volunteers to get involved. If you are interested in discussing these opportunities, please contact our Volunteers and Community Programs Coordinator.

## ○ An ordinary man's extraordinary journey

**Little Adelaide Village (Wilson Street) resident Pat Rothery is one of nearly 100 surviving Arctic Convoy veterans who received the rare Russian Ushakov medal for bravery, acknowledging his efforts in delivering vital supplies to Russia during World War II.**

In what war-time British leader Winston Churchill called 'the worst journey in the world', about 1,400 vessels delivered much-needed war supplies to the Soviet Union after it was invaded by Germany. The struggle to provide the supplies cost the lives of around 3,000 sailors and merchant seamen.

Pat, turning 100 years this October, was also awarded an Arctic Star medal for his service and bravery seven decades after the mission across dangerous and freezing Arctic seas.

Born in London in 1919, Pat was raised in Ireland by his grandparents. After schooling in Ireland, Pat returned to England where he became involved in the aircraft industry until the outbreak of the war in 1939. Joining the Royal Navy as an ordinary seaman in late 1940s, he later trained as Sub-Lieutenant during which time Pat served on many Arctic Convoys to Russia, experiencing a number of near misses and the most vicious sea conditions.

Further training in 1943 and with an appointment as Port Anti-Submarine Officer his expertise took him to India where he met Jo, who was serving in the Women's Auxiliary Air Force (WAAF). Jo was to become the love of Pat's life and enjoyed a long and happy marriage lasting more than 60 years with their four children. To Pat's great sorrow, Jo passed away in 2006.

After the war, Pat became involved in research and development in the aircraft industry, relocated to Woomera in 1950 and later became involved in space tracking with the NASA space tracking stations and facilities across Australia.

Pat recounts that apart from his pride in the achievements of family, he counts the winning of the highly competitive NASA contract and receiving a commission in the Royal Naval Volunteer Reserve as the highlights of his personal career.

Living in Prospect for the last 13 years, Pat promotes an 'open house policy' at his unit that encourages comradeship and a sense of community within Little Adelaide Village. Being community minded, Pat had been a JP for nearly 50 years, a member of various Rotary Clubs for nearly 40 years, awarded the Paul Harris Fellowship Medal and is currently a member of the Prospect Probus Club. He enjoys the company and contact with his children, grandchildren and great grandchildren, stating that 2 of his sons and 2 grandsons remember fondly their years at Blackfriars school.

## ○ Kiandra dementia art project

**Residents from Kiandra Residential Care in Prospect recently won second prize at the Uraidla and Summertown Horticultural Society Show for artwork.**

This two-part artwork grew over a 16-week period. During art sessions, over 15 residents aged up to 95 years, coloured or painted ocean figures. The residents then selected the pieces for the artwork with the assistance of Lifestyle Coordinator Sue.

The artwork is featured in the hall at Kiandra, where residents love to show family and friends. Well done to the Kiandra residents involved in the project!

## ○ Community collaboration the key to success

**Since its inception at the beginning of 2018, U3A Prospect, an organisation offering recreational and educational activities for retired persons, has always focused on building relationships with other community groups.**

"We have never tried to replicate what is already happening in the community, instead we aim to collaborate with community groups in offering activities through U3A," said Club President Jenny Rossiter.

"We have a tutor from the local North Winds Mahjong group running weekly mah-jong activities, a come n try Petanque session run by members of the local Petanque Club and come 'n' try croquet sessions with the North Adelaide Croquet Club. Teresa, from Crackpots Mosaics, runs mosaic classes at U3A."

U3A gives people the opportunity to try something new, to be with beginners who are all in the same boat. If participants enjoy the activity and have gained some basic skills, they are encouraged to join local community groups.

"We also help promote community group activities such as the Prospect Community Garden food swap, the Prospect Local History Group air raid shelter tours, the Prospect Local Environment Group workshops and the Prospect Vintage Theatre," said Jenny.

"It's all about being connected, helping each other."

If you are a member of a community group who is interested in offering activities through U3A Prospect, we would love to hear from you.

## New public artwork celebrates unity and cohesion

Through consideration of City of Prospect's City Wide Public Art Roundtable, artist John Hayward was commissioned to design, build and install a public artwork within a garden plot adjacent Menzies Crescent.

Titled 'The Team', the artwork, in the form of a hand, is a response to its location situated at a confluence of community spaces: the Prospect Oval, the RSL club and the Prospect Memorial Gardens. Hayward's design celebrates the unity and cohesion of our community, in its many forms and manifestations.

### Reconciliation Action Plan July 2018 - June 2020 (2 Years)

## Our reconciliation action plan

We recently launched our new Reconciliation Action Plan (RAP). This plan embeds reconciliation across all City of Prospect business practices, and focuses on Kaurna people's connection to the local area, strengthening our relationships, supporting Aboriginal and Torres Strait Islander businesses, demonstrating respect, providing opportunities for cultural learning and career development and celebrating our shared successes.

Council's RAP has been developed through a comprehensive audit of existing Council activities and gap identification exercises. This information was then transferred onto the Reconciliation Australia RAP Template under the themes of 'relationships', 'respect', 'opportunities' and 'tracking and progress'.

Join us this Autumn for a range of programs and events perfect for families, children, youth and adults! Affordable, accessible and in the heart of Prospect, our Autumn Program has all you need.

For program details and booking links visit:  
[www.prospect.sa.gov.au/fall-into-autumn](http://www.prospect.sa.gov.au/fall-into-autumn)

## Planting trees in our streets

### This year we have a number of tree planting programs which will see an increase in the number of trees planted on our streets.

Our ongoing Street Tree Planting Program captures any locations that have had trees removed recently due to ill health and these locations are replanted with new street trees to replace the ones that have been removed. Our White Cedar Replacement Program

continues this year, targeting the removal and replacement of White Cedar trees that are considered to pose a risk to the public. New trees are planted in place of the ones that are being removed.

This year we also have a new tree planting program called Green Tunnel. This program targets areas in our city that have been identified as having low tree canopy cover and these areas will be planted out with more trees. We aim to have green leafy tunnels across all our streets where possible to keep temperatures nice and cool, particularly during heat waves in summer.

At the optimum planting time between June-October 2019, you will see many new trees being planted across our city. If a tree is planted at the front of your property, it will really help us out if you add a bucket or two of water to it every once in a while. The tree will thank you for it and you will have contributed to a great thriving tree amongst the others in your street.

If you are missing a street tree at the front of your property, please send us an email with your address and we will check to make sure it is on one of our tree planting programs.

E: [admin@prospect.sa.gov.au](mailto:admin@prospect.sa.gov.au)

## What's the buzz about bees?

**We may not know that bees are very important for the environment and we take them for granted, but how important are they really?**

Native bees and European honey bees are an integral part of the pollination process. Bees forage and during the process, pollen attaches to the fine hairs on their bodies. This results in pollen transferring from plant to plant and from one site to another site, in other words pollination of plants and flowers. The pollination facilitates plant fertilisation, allowing reproduction and fruiting. Many fruits, such as apples, raspberries, almonds, peaches are more productive and produce a better fruit for longer when pollinated by a honey bee.

European honey bees are fuzzy and buzzy hard working insects that are busy pollinating

and, if you don't bother them, they won't bother you. Honey bee swarms rarely stay in one place for more than a day so, chances are the honey bees will take off on their own if left alone. It is a misconception that a cluster of honey bees are building a nest, when in fact it is only a temporary assemblage.

If you have a concern about European honey bees swarming around a property, we encourage you to call a local beekeeper instead of spraying the hive with insecticide. Beekeepers are experienced in managing honey bee hives and they can safely remove the swarm. Please contact our Customer Service staff if you notice any honey bees swarming on Council property.

## Hard waste collection services

### Each household within City of Prospect is eligible for three free hard waste collections per financial year.

All hard waste collections must be pre-arranged by calling **East Waste on 8347 5111** or booking online at [www.eastwaste.com.au](http://www.eastwaste.com.au)

#### Please allow up to 3 to 4 weeks booking time.

A collection date will be provided to you after your booking request has been received.

If you do not receive a booking confirmation within 24 hours, please call **8347 5111**.

Items must be placed on the kerbside no earlier than 24 hours prior, and no later than 6:00am of the booked collection date. Each household is entitled to up to two cubic metres (2m long x 1m wide x 1m high), the equivalent of a standard trailer load. Items placed into plastic bags will not be collected.

#### Items suitable for hard waste collection

- Domestic household items
- Used furniture and bedding (including mattresses)
- White goods- fridges/freezers, washing machines, stoves, air conditioners and dryers (with lids and doors removed)
- Empty paint tins, with lids removed
- Scrap metal and timber items
- Tools and gardening equipment
- Carpets and linoleum (rolled and tied with rope - not wire)
- Pottery, crockery and wash basins
- General waste items able to be handled by two people

#### Items NOT suitable for hard waste collection

- Building materials (including bricks, concrete, asbestos, plasterboards, dirt or rocks)

- Batteries
- Car bodies, parts or tyres, large items of scrap metal
- Oils or liquid waste
- Gas bottles or cans containing paint
- Ammunition and explosives
- Green organics, including tree stumps and other organic material
- Domestic waste, including bottles, cans or cardboard
- Business waste
- Other hazardous waste items as defined under the Environment Protection Act

*\*Please note that this service is a domestic hard waste service and is not available to businesses. If waste placed on kerbside is larger than the entitled two cubic metres it will not be collected and you will be required to book an additional collection. If you have used your three entitled collections per financial year, you will be required to dispose of your hard waste yourself. Items dumped at the kerbside without a confirmed booking could incur an illegal dumping/littering fine.*

## Why waste it when YOU can compost it?

Composting organic material is great for our environment. Did you know that almost half of our kerbside waste can be made into compost and mulch products?

The majority of greenhouse gas emissions from landfill are due to decomposing organic material, which can be avoided by recycling through our organics green-lid bin. Other than methane being produced by decomposing organics, nutrients from organics are locked in landfill and unable to be used again to grow plants and food. Composting and mulching our food and garden organics is cheaper than sending them to landfill.

Why waste it when YOU can compost it? Reduce the amount of organic material you send to landfill by using a Kitchen Organics Basket to collect food scraps and other compostable materials before placing it into your green-lid food and garden organics bin.

City of Prospect offers residents a FREE Kitchen Organics Basket available from East Waste. Contact East Waste on **8347 5111** or go to [www.eastwaste.com.au](http://www.eastwaste.com.au) and order online if you do not already have one. Council also provides every eligible property with 150 compostable (corn starch) bags each financial year to help assist with the collection of food scraps for disposal.

## If you want to donate or receive organic waste, why not try ShareWaste?

**ShareWaste connects people who wish to recycle their kitchen scraps with their neighbours who are already composting, worm-farming or keeping chickens.**

You can be a donor or a host by simply signing up via **ShareWaste.com**. There are residents within City of Prospect already signed up, so why not join them?

ShareWaste is a grassroots project that is community focused, supportive, kind and neighbourly. You might not have room for a compost bin but by sharing it, you can help your neighbour create new soil. Or, you may have a garden and have worms to produce new soil, or grow produce and need to fertilise your garden so would like to receive more kitchen scraps. Alternately, you could assist your local café or restaurant by collecting their coffee grounds and/or food waste to provide to other composters, worm farms or chicken owners within City of Prospect.

# Reinvigorating the Prospect town hall

**These are exciting times for Council and the community as we usher in the new year and look forward to the completion of the new Community Hub, Library and Innovation Centre (CLIC) in October.**

Construction has continued at a rapid pace since the previous edition of the Prospect magazine, with the new building reaching its full height by the end of February 2019.

Internal wall framing has also been established, which gives a sense of space to the individual areas on the ground floor including the new gallery, library and toy library. The brickwork to the Prospect Road façade has been completed, which will in the future frame your view into the Prospect Gallery from the street. The balcony to the front of the large meeting and events

space on level one is also taking shape, which will offer views along Prospect Road once the building opens.

An important phase of work recently commenced to clear the interior of the Town Hall in preparation for its integration into the CLIC facility as a whole. This is a key part of the project, as it will ensure the Town Hall becomes a functional and lively part of an integrated facility, supporting a range of activities both day and night.

The initial demolition works have included the creation of wider openings in the thick stone walls between the main hall and the new building, as well as between Eliza Hall and the existing Vine Plaza foyer. The old toilet facilities at the front of the Town Hall have also been removed (with upgraded facilities to be provided in the new building) to create an opportunity for an exciting new retail or food and beverage offering, which

will complement the diverse range of businesses in the Village Heart.

For those of you familiar with the existing Irish Harp Room (located within the Town Hall building), you'll be pleased to hear it will be provided with new flooring to match the main hall, as well as upgraded facilities so it can be used as a maker space as well as for meetings. An operable wall will also be installed, allowing for the room to be divided into two smaller spaces for use by the community.

While the building is now visible from a distance along Prospect Road, passers-by continue to enjoy being able to see the construction progress through special portholes located in the covered walkway at the front of the site. If you aren't able to get to 128-130 Prospect Road to see what's happening, check in to see the latest photos at [cityofprospect.engagementhub.com.au](http://cityofprospect.engagementhub.com.au)

## Stan Watson Reserve upgrade

**Stan Watson Reserve (on Charles Street, Prospect) is undergoing a redevelopment, which will result in brand new facilities for our community, including a playground, nature play, family areas and lawn space.**

Our community provided feedback on what they would like to see in the new park and this feedback was incorporated in the concept design where possible.

The Reserve will be closed from mid-February and we expect it to reopen before the Easter break in April 2019. Make sure to visit this new, upgraded park during the pleasant Autumn months.

## George Whittle Reserve farewell

**We held a farewell at George Whittle Reserve (Churchill Road) on Saturday 19 January and we were very impressed with how many people attended. At one stage there would have been 70+ people in attendance!**

The skate park was very popular that day and everyone enjoyed the free food and drinks. Many people commented on the success of the event and are looking forward to the new skate park being reopened in mid-2019.

Thank you to the Lions Club who kindly donated their time to cook the BBQ and did an amazing job.

Entertainment was provided by a young Prospect resident, 12 year old DJ Bailey.

## My aged care

**It's never too early or too late to talk about services you need in the home, or social activities to keep you living an independent and active life.**

Are you looking for in-home aged care services or local social connections?

**My Aged Care** is the starting point to access Australian Government-funded services.

**City of Prospect**, as a service provider, can offer you services and social support through the Prospect Community Support team.

### Help at Home \*

- Domestic assistance
- Garden tidy
- Annual gutter, spring & window cleaning
- Minor home maintenance
- Home modifications

### Social Programs & Activities \*

**Mondays** – Exercises - Strength For Life classes and light mobility classes

**Mondays** – Friendship Group – offers a variety of indoor activities and afternoon tea

**Men's Mondays** – events and trips to catch up with other blokes in a relaxed and friendly environment

**Tuesdays** – Central Market Trip - enjoy the ambiance and atmosphere of the Central Market  
**Tuesdays, Wednesdays, Thursdays** – Men's Shed – further your woodworking skills over coffee and a chat

**Wellness Wednesdays** – lunches, cooking lessons, wellbeing seminars to promote healthy choices and lifestyles

**Active Thursdays** – outings that allow you to enjoy the company of others in and around Adelaide

**Thursdays** – Community Lunch - enjoy a three-course meal along with entertainment

### My Aged Care

If you HAVEN'T registered, please phone 1800 200 422 to register and undertake an in-home assessment to discuss services and social support to meet your specific goals and needs. Prospect Community Support then requires a referral to provide these subsidised services to keep you safely supported at home or out-and-about in the community.

If you HAVE registered, Prospect Community Support needs a referral to provide these subsidised services.

Contact Prospect Community Support 8342 8091 for further information on the My Aged Care process, referrals for services or simply to discuss and book into a social group.

\* Subject to availability and funding. Funded by the Australian Government Department of Health

## Liver Health & Viral Hepatitis Education Session

**Come along to find out about liver health, hepatitis b and hepatitis c.**

**Some people can be living with hepatitis B or hepatitis C and not feel sick.**

**You will learn about how to keep your liver healthy, transmission of hepatitis B and C, vaccinations, testing and treatment.**

**Nailsworth Community Hall**  
31 D'Erlanger Ave  
Collinswood

**Wednesday, 15 May 2019**  
10am-12pm

**Morning tea provided**

**Bookings are essential**  
Call 8342 8091 to book today!

## YouthFM - recruiting now!

**Council is seeking expressions of interest from dynamic and expressive young people aged 15 – 25 years to join the YouthFM team and assist with the preparation and delivery of a weekly live to air radio show at Three D Radio studio.**

Free training is offered in April school holidays that will provide participants with the essential skills and knowledge to become a regular presenter on the show and produce compelling features for radio.

Involvement with YouthFM will provide participants with valuable and transferable skills that may increase employability including public speaking, written and verbal communication, team work and confidence. YouthFM may also act as a stepping stone to other volunteer or career pursuits in radio and media industries.

If you live, work, study or have a connection to City of Prospect and want to be considered for a place, please email our Youth and Live Music Coordinator to request an application form.

# ○ Raising women to new heights

Local businesswoman, Marissa Schulze, of Rise High Financial Solutions, is one of the facilitators of a new financial capability program to help South Australian women.

The Financial Education for Women program, run by Behind Closed Doors, commenced in February and includes seven modules covering topics such as financial goal setting and planning, financial position self-examination, and understanding investment shares, property and superannuation. The program aims to assist women in achieving financial wellbeing, reduce vulnerability to financial stress, and address the impact of the gender pay gap.

The Financial Education for Women program is “about bringing women together to share

knowledge, develop networks and receive support in a peer group mentoring environment to make better financial decisions daily,” said Ms Donny Walford, Behind Closed Doors founder.

Marissa is joined by other high-profile businesswomen from the South Australian financial and legal sector - Andrea Michaels and Karen Eley.

Members will have access to mentoring, networking, and actionable learning. The program offers a confidential, safe, and supportive environment for participants to practice accountability and personal development.

The program will continue in May, with modules three through to seven, and in 2020 there will be two post module reviews. The meetings will take place at the office of Rise High Financial

Solutions, from 9:30am-12:30pm.

The Rise High Financial Solutions family has been experiencing exponential business growth and success, furthermore requiring a larger space. Their new office is located next door to their original office and accommodates their growing team and client accessibility, such as increased on-site parking and a seminar space.

The larger office with convertible meeting space allows Rise High Financial Solutions to offer their informational seminars and events within the City of Prospect, which were previously held at off-site Adelaide CBD locations.

To express your interest in the membership: E: [info@behindcloseddoors.com](mailto:info@behindcloseddoors.com). W: [networkprospect.com.au/raising-women-to-new-heights](http://networkprospect.com.au/raising-women-to-new-heights)

# ○ A new chapter

Thank you to all of you who took the time to vote in last year's Council elections. Your feedback during the election campaign, in affirming the work we have been doing, or in asking for a different approach in some areas, has been listened to. Your election choices will shape the work of your Council for the next four years.

Congratulations to our new councillors, Thuy Nguyen and Robin Pearce in the North Ward and Steven Rypp in the East. Their fresh eyes and new ideas are very welcome and are already having an impact on Council's agenda for this year.

Thank you to our outgoing councillors, Talis Evans, Monica Lee and Mark Standen. They all played a valuable role in guiding the work of Council over the last four years, and over the last ten in the case of Monica. I hope you also take the opportunity to thank them for their service to the community.

Our Australia Day City of Prospect Citizen of the Year David Kilner also deserves our collective thanks and congratulations. David has led the creation of many publications about our city in his role as chair of the Prospect Local History Group, recording local history for our enjoyment today and for future generations.

As does our Young Citizen of the Year Darcy Maney in recognition of her wonderful volunteering work at local events. Congratulations also to the Fourth Annual Great Ukulele Picnic, which received the Community Event of the Year award for their colourful Christmas event in St Helens park, attracting nearly 400 ukulele lovers - who would have thought!

Signs of progress abound across the city with the first-ever homes nearing completion on the old container yard on Churchill Road, the power lines have been placed underground on Hampstead Road, the very last section of this work on Prospect Road is well underway and Council's own new civic centre has reached full height adjacent the original Town Hall.

Finally, I'm delighted you've trusted me to lead our wonderful community for another term, so be sure to contact me if I can be of assistance.

**Mayor**  
**David O'Loughlin**

M: 0408 598 863  
E: [david.oloughlin@prospect.sa.gov.au](mailto:david.oloughlin@prospect.sa.gov.au)

# ○ Resilient East - heat mapping

Urban heat islands are areas that retain more heat than the surrounding landscape due to changes in land surface type. This is a key concern for City of Prospect given that extreme heat causes health and environmental hazards and affects vulnerable members of our community. Green areas, including grasses and trees, help to moderate the air and surface temperatures and therefore reduce the impact of urban heat island effect.

City of Prospect is part of the Resilient East initiative that recently undertook heat mapping to identify urban heat islands, which will assist in prioritising canopy and green cover activities on Council land. Find out more information and Heat Mapping Report at [www.resilienteast.com](http://www.resilienteast.com).

High-resolution maps have been produced that indicate where urban hot spots are located. The maps are available via the Department of Environment and Water [spatialwebapps.environment.sa.gov.au/urbanheat](http://spatialwebapps.environment.sa.gov.au/urbanheat) with a mapping tool for residents, landholders, businesses and developers to access. It will allow the community to see how hot or cool their property is and encourage you to increase canopy and green cover to help create a cooler city.

# Your Prospect Council

## Central Ward

**Alison De Backer** M: 0423 114 170 E: [alison.debacker@prospect.sa.gov.au](mailto:alison.debacker@prospect.sa.gov.au)

Prospect's community groups, sporting clubs, business networks and neighbourhood connections are what makes our city great. As someone who is involved in several community groups, I know it is often difficult to get volunteers and funds to achieve the year's objectives.

If you are a part of a group please be aware of the grants and programs that are available to you through Council. From small events grants and community support funds to business networking events, there is something for everyone. Some programs are open all year round and some open later in the year, so get it on your agenda to start preparing now.

Council will be deliberating on the 2019/2020 draft budget soon and I believe it is very important to set aside funds to facilitate more activities by the community, for the community.

Please get in touch with me if you have any suggestions about how to improve the process and encourage new applicants for our community grants, programs and support.

## Central Ward

**Mark Groote** M: 0401 717 491 E: [mark.groote@prospect.sa.gov.au](mailto:mark.groote@prospect.sa.gov.au)

Can you believe it's been five months since council elections? Thanks to all candidates who put their hand up to represent their local community, and particularly to those who supported me in many ways. I'm excited to be representing Central Ward and there's lots to do – including getting our traffic management right, keeping our budget in check, protecting our heritage, being environmentally responsible and supporting local businesses. We are in the midst of budget discussions, so if you have any thoughts on what our budget should prioritise, please let me know.

I'm pleased that we have now approved Kaurna names for Prospect Oval (Payinthe yarta) and Broadview Oval (Yarnta Tutu yarta) – a great expression of our Reconciliation Action Plan recently endorsed by Council.

Having been the Deputy Mayor for the past five years, I decided to not re-nominate for this position and congratulate Cr Larwood for taking up this important role.

Please feel free to contact me anytime on any issue that I can help you with.

## East Ward

**Allen Harris** M: 0419 324 397 E: [allen.harris@prospect.sa.gov.au](mailto:allen.harris@prospect.sa.gov.au)

Welcome to our first article. I would like to thank all the people in East Ward that gave me the privilege to represent you again. I would like to give a special thank you to Mark Standen for his assistance and hard work.

There are many things that still need doing on this side of Main North Road to improve the safety and maintain the comfortable lifestyle that we are all so proud of. We must have more trees, both on our roads and in our parks. I also want to try and get rid of excess wires that we have in our streets. We haven't had it for a while, but we have a State Government hell bent on cutting services to our residents, with the SA Services closure one example.

Remember, if you have a problem, don't hesitate to contact me. Stay safe and enjoy our City.

## East Ward

**Steven Rypp** M: 0403 772 851 E: [steven.rypp@prospect.sa.gov.au](mailto:steven.rypp@prospect.sa.gov.au)

I am very grateful and excited to have the opportunity to represent you on the City of Prospect Council. Thank you to the residents in East Ward for raising your concerns with me during the council election. As a result of your feedback, I have raised the following issues during a recent Council meeting:

1. The need to beautify the Collinswood Shopping Centre and surrounding precinct.
2. The need to consider a roundabout or alternate solution at the Rheims/Galway/Jellicoe intersection as part of the current works by Council to address traffic volumes and road safety issues at Galway Avenue, Edwin Avenue, Rutherglen Avenue, North Street and North East Road.

Thank you to Council for supporting motions relating to these issues. I look forward to keeping residents updated on the progress. Please feel free to contact me if you have any issues or ideas to develop our area.

## North Ward

**Robin Pearce** M: 0407 244 772 E: [robin.pearce@prospect.sa.gov.au](mailto:robin.pearce@prospect.sa.gov.au)

I am delighted to be elected to represent the North Ward. Thank you to all my supporters, candidates and most importantly the people that took the time to vote. I wish to also congratulate Cr Thuy Nguyen on being elected as a newly elected member.

The initial months have been hectic, engaging but definitely rewarding.

It is apparent that the majority of residents have common concerns; traffic congestion, parking and increasing development density. These areas of concern are currently being addressed by Council Members and staff towards finding sustainable and viable solutions.

Having lived in Prospect for over 50 years I have seen the immense change and it has made our city a highly desirable area to live, work and raise a family. I will do my best to ensure this tradition continues.

## North Ward

**Thuy Nguyen** M: 0413 499 109 E: [thuy.nguyen@prospect.sa.gov.au](mailto:thuy.nguyen@prospect.sa.gov.au)

Thank you for supporting me in North Ward; it is an honour to represent you in this wonderful city.

Since elected, I have been working closely with the Mayor, Councillors and staff addressing issues within our city.

The Stan Watson Reserve Upgrade, situated on Charles Street in North Ward, is due for completion in the coming months. Thank you to all the residents who participated in the consultation, your responses have been noted and have been included in the design plan. This improved open space will be a great place for the family including our four-legged friends; so watch the space!

With Easter being around the corner, I would like to say Happy Easter and enjoy spending quality time with family, friends and the people in your community.

Please feel free to contact me on matters that are important for our area.

## West Ward

**Kristina Barnett** M: 0408 822 923 E: [kristina.barnett@prospect.sa.gov.au](mailto:kristina.barnett@prospect.sa.gov.au)

It was certainly a busy time during the recent Council elections. Thanks for re-electing me. Matters for action raised by many residents include traffic management, parking in narrow streets, planning (strengthening Prospect's residential heritage character and improving Churchill Rd apartment design) and reasonable rates.

I've already started to look at solutions with my Council colleagues to strengthen Council's Community Engagement and Consultation Policy, advocate for changes to State Government planning policy on demolition and new residential development applications supporting our established character, trial a Parks Facilities Booking System, look at traffic management for Churchill, Braund and Main North roads and Devonport Tce improvements. George Whittle Reserve upgrade has started.

As a woman councillor, I'm supporting projects celebrating 150 years of Susan Benny, the first woman elected to a Council (former Brighton) in Australia, also, Prospect Local History Group's project (updating Prospect history from 1970s onwards). I'd love to hear your community recollections!

## West Ward

**Matt Larwood** M: 0458 019 994 E: [matt.larwood@prospect.sa.gov.au](mailto:matt.larwood@prospect.sa.gov.au)

New Council term, new possibilities.

Whilst doorknocking during my recent election campaign I received a variety of feedback, ideas and, of course, heard a few concerns. I'd like to thank you for taking the time to have a chat. Now that we've commenced a new term in Council I'll be bringing this feedback to 'the table' and pushing for better outcomes, not only for people who live in the West Ward, but for all of our residents, home owners, business owners and visitors.

We're poised to be an even better place to 'live, work and play' and I've got a number of initiatives I'll be pushing to introduce in order to build on the great work of recent years. We must however be mindful of the consequences that come with this success and ensure that we protect and enhance what makes this a great place to live.

# What's on?

## True North

28 March - 5 May

Prospect Gallery,  
1 Thomas Street, Nailsworth

Free

[prospect.sa.gov.au/ProspectGallery](http://prospect.sa.gov.au/ProspectGallery)

True North is an exploration and celebration of place, connection and belonging. Melanie Crawford moved from Sydney to Adelaide in late 2016 and has settled into the Prospect area. As an accomplished abstract artist, Crawford's paintings reveal and conceal multiple textural layers representing time, memory and emotion.

## 2019 DreamBIG Exhibition - Wonder

16 May - 23 June (Launch 16 May 6pm)

Prospect Gallery,  
1 Thomas Street, Nailsworth

Free

[prospect.sa.gov.au/ProspectGallery](http://prospect.sa.gov.au/ProspectGallery)

An exhibition featuring the artwork of students from local Prospect primary schools. DreamBIG Children's Festival is South Australia's iconic biennial arts festival for schools and families. Participating schools include Prospect Primary School, Prospect North Primary School, Nailsworth Primary School and Blackfriars Priory School.

## World Enviroment Day Talk: Alternative Housing Solutions

Wed 5 June 7:30pm - 9:30pm

Prospect RSL Hall,  
1 Menzies Crescent, Prospect

Free

<https://bit.ly/2CRDP8v>

To celebrate World Environment Day, Prospect Local Environment Group invites the general public to a free talk by South Australia innovators on Alternative Housing Solutions. Alternative housing solutions are gaining momentum and making us rethink how we live to meet modern lifestyle change. Enquiries Kristina Barnett - E: [pleg5082@gmail.com](mailto:pleg5082@gmail.com)

## Celebrating NAIDOC

4 July - 11 August Launch 4 July 6pm

Prospect Gallery,  
1 Thomas Street, Nailsworth

Free

[prospect.sa.gov.au/ProspectGallery](http://prospect.sa.gov.au/ProspectGallery)

Selected works from the Adelaide Festival Centre Works of Art Collection. NAIDOC celebrates the history, culture and achievements of Aboriginal and Torres Strait Islander peoples and is celebrated not only in Indigenous communities, but by Australians from all walks of life.

Image: Angela Watson, *Minyma Tjurkurpa*, 2017. Courtesy Ninuku Arts.

## Professor Planet and His Revolutionary Recyclatron

Tues 16 April 11am - 11:45am

Prospect Memorial Gardens,  
(Menzies Crescent, Prospect)

Free

[professorplanet.eventbrite.com.au](http://professorplanet.eventbrite.com.au)

Professor Planet will amaze everyone with his Revolutionary Recyclatron that instantly recycles paper, glass, plastic and food scraps into wonderful new materials.... If only he could get the thing started! Through comedy, music and special effects, this show will help children become enthusiastic recyclers who know which items can be recycled, which bins to put them in and what those items can be recycled into.

○ Prospect Fruit and Veg Swap

- First Sat of every month 10 - 11am
- Prospect Community Garden (Memorial Gardens, Menzies Crescent)
- Contact Alan on 0432 970 466

Do you have surplus fruit or veggies? Why not swap them for produce you don't have? A community fruit and veg swap is a fun, free way to exchange home grown produce including fruit, veggies, herbs, flowers, seeds and also share your story about your garden. Swaps are springing up all over Adelaide and are a great opportunity to meet other local backyard gardeners over a cuppa and chat. So no matter how little or how much produce you have, come along and help build sustainability and community.

○ Tour of the Prospect Air Raid Shelter

- Sunday 19 May, 3pm
- Willcox Avenue, Prospect
- Entry by Gold Coin Donation Bookings essential via Eventbrite

The Prospect Air Raid Shelter Gardens commemorate those who served in the War and particularly honours the civil defence effort in our local community, under the leadership of former Prospect Mayor, Charlie Williamson.

This tour will also visit the interior of the shelter and we will learn how our civil defence was planned. Closed footwear essential. Steep steps to climb for tour of interior. Outside is accessible.

○ Off the shelf reviews

Book Review: THE ESCAPE ROOM By Megan Goldin.

The second novel from author Megan Goldin is a heart-pounding read. If you have experienced an escape room adventure in real life, you will understand how the

challenge to solve clues and puzzles to escape from a locked room in an hour gets your mind and heart going. This novel is just the same, for the four work colleagues Vincent, Jules, Sylvie and Sam. The four are highly ambitious, working in lucrative investment banking in New York City. When they are trapped in an elevator escape room, believing it is a team-building exercise, they have to put aside rivalry to work together to solve clues and escape their confinement. The clues are surprisingly personal, leading to suspicions that one of them in fact has killed before and is out to kill all the others. Interleaved throughout the story of the escape attempt is a first-hand account by Sara Hall, who used to work at the same firm with Vincent, Jules, Sylvie and Sam, detailing her experiences when she first started work there. This is a fast-paced thriller novel, keeping the reader involved to the last page. No sooner does suspicion fall upon one person, then the story changes direction, leading to another convincing suspect. The prologue to the story, revealing the outcome of the elevator trap, is temporarily forgotten until the end of

the book is reached. Definitely add this to your must-read list! And if you haven't had a real-life escape room experience, try it – two places in Adelaide provide an entertaining and safe environment (unlike the elevator in this book!).

Book Review: OUR HOUSE By Louise Candlish.

British author Louise Candlish has written a great book about the secrets in a marriage and the unexpected outcomes when these secrets are exposed. Both husband and

wife narrate the story, alternating between Fi's podcasts and Bram's Word document. It starts with Fi's unexpectedly early return home, only to discover that another family are moving into her beloved house, located in an upmarket and highly sought-after part of London. Surely they have made a mistake, after all, the neighbours a few doors down the street are selling their house. Fiona knows she wouldn't, and didn't, put the house on the market for sale. However, she cannot contact her husband Bram to find out what he knows. And when she thinks of her children and calls the school, frighteningly, her sons are not there. The story intrigues the reader, initially seeming to be a tale of domestic infidelity and betrayal but thanks to human frailty, moving into darker situations and ending unexpectedly! Read and find out!

## 2019 Twilight Sessions

## Exhibition launch of Napalm Jane and the Martian Hammers from Nowhere

# Prospect Spring Fair

## What a cracker the 2018 Prospect Spring Fair was! There were 7,000 of you who joined us at Broadview Oval on Saturday 27 October.

Proudly endorsing a 'Tread Lightly' theme, the Fair was zero waste in 2018 thanks to a combined effort from stall holders, community members and dedicated staff and volunteers. There were over 100 stalls plus entertainment such as rides, Flyball, Sports Zone, Kids Zone,

Nylon Zoo, a Car Boot Sale, come and try stage, cooking demonstrations, live music and roving performers. We introduced a shuttle bus from Prospect Road and you could even get a lift from one side of the oval to the other on our golf buggies!

The Prospect Spring Fair will be on again in 2019 on Saturday 26 October at Broadview Oval, Broadview. We look forward to creating another entertaining, culturally diverse, innovative and enjoyable Fair for everyone in our community and beyond.

Got an idea for a feature event? Maybe you want to host a baking competition or organise an outdoor sculpture exhibition – put on your thinking caps! Get in touch if you'd like to do more than have a stall at this year's event.

General stallholder applications will be open in June; so if you were not a stallholder last year, please send us an email with your name, email, phone and address so we can add you to our mailing list.

T: **8269 5355**  
E: **admin@prospect.sa.gov.au**

## Partner with us

**City of Prospect is well-known for its creative, diverse and enjoyable arts and events. Year-round, but especially from October to February each year, the local community is buzzing with the energy created from the Prospect Spring Fair, Tourrific Prospect Street Party and the Twilight Sessions.**

We are seeking like-minded, enthusiastic and engaged sponsors to partner with us on these events to support and value-add to these fantastic projects for the community.

Events are a great way to strengthen your brand and perceived values by telling thousands of attendees what your business is all about. We will work with you to showcase

your product, reach a large engaged audience and achieve your marketing goals.

Shape your businesses identity by sponsoring certain aspect of the event i.e. Welcome to Country, cultural diversity, sustainability, contemporary music, kid's entertainment etc. By showing your support for your target audience's interests, the more likely it is that the audience will choose your business next time they seek out your product.

We can offer exciting opportunities through an event partnership as it allows your business to get closer to the community, both residents and local businesses. Contact our Manager Arts and Events at E: **admin@prospect.sa.gov.au**.

## Supporting our community

### **In 2018/19 through our annual grants program, City of Prospect supported 22 local community groups with their new projects and activities.**

Through the annual grants program, Council funded the purchase of equipment, environmental initiatives, improvement of facilities, and major community events right here in our own backyard; including a local history project for a Sesquicentenary

History Book that will mark City of Prospects 150 years in 2022.

Some examples of where the funding was allocated was the South Australian Bangladeshi Community Association who received a major grant for Bijoy Mela 2018, a Multicultural Festival. Over 1000 people attended this event during December in St Helens Park. Another example is Prospect Community Garden who received a grant to establish a monthly food swap that provides free workshops on topics such as seed saving, grafting, and growing your own food. This project will provide residents with an

opportunity to share their excess garden produce and meet with other like minded people to have locally grown, often organic, free produce.

Small grants of up to \$5,000 and major event grants of up to \$10,000 will be available in the new financial year for activities and events held within City of Prospect.

All community groups and not-for-profit organisations are encouraged to apply for funding. For more information and guidelines visit our website.

# Meet Your Local Optometrist Lisa Ho

## Why is it important to have your eyes tested?

Not only is it great to see well, but also for the long term. Most of the common causes of blindness in developed countries (glaucoma, macular degeneration, diabetes and retinal detachment) are painless and don't affect vision immediately, meaning they often go undetected. Because these conditions are treatable or preventable, the key is to have your eyes checked thoroughly and regularly so as not to leave it too late.

## What other conditions can be detected during an eye test?

Many people don't realise that the eyes are the only part of the body that allows us to see inside without cutting into the skin. We can view the health of your arteries, and observe when there is a build up of cholesterol, plaque or blood pressure, which can give us an indication of how the rest of the body is looking. We can also detect skin cancers or moles in the eyes, or even conditions like multiple sclerosis, diabetes and a range of auto-immune conditions.

## What can people do to support their eyes and eye health?

The eyes are integrated with your body, and so eating well and exercising goes a long way in keeping your eyes young and healthy over time. In particular, eating dark green leafy and orange vegetables, vitamin C, Zinc, and omega 3, can also help to sustain many of the important parts of the eye.

## When is it recommended that children have their eyes tested?

Before starting school is a good time, and annually after that, especially if there are people in the family with glasses, colour vision problems or an eye turn.

## What can be done for children with worsening eyesight?

This is a huge area of current research, and studies are finding that specially designed contact lenses can help to slow down short sightedness with success rates of up to 85%. These can also help young adults whose shortsightedness is progressing over time.

## Can I wear contact lenses?

The technology has improved so much over the years that yes, the majority of people can now wear contacts and comfortably! This includes for seeing far and close, like a multifocal.

## What symptoms need urgent attention?

If you are seeing new floaters, flashing lights, sudden blurriness, double vision, or an area of your vision where you suddenly can't see, this may indicate an issue that needs immediate attention.

Please don't delay in seeing an optometrist in these cases.

## What can customers expect at Wellness Eyecare?

Our practice is aimed at providing a high level of clinical care, including the latest in equipment, lens and frame technology. Consultations are normally 40 minutes, allowing adequate time for a comprehensive assessment, and to discuss the right solution for your needs. We also offer a contact lens service to help you confidently choose frames.

## About Lisa Ho (formerly Lisa Ly) BOptom (Hons) GradCertOcTher UNSW

Lisa is a Therapeutic Optometrist, the SA State President of the Cornea and Contact Lens Society of Australia, CASA Credentialed Optometrist and recently opened Wellness Eyecare. She is a past guest lecturer, tutor and supervisor at the Flinders University, and has experience at the LV Prasad Eye Institute, Hyderabad, India, and also in charity screenings in Cambodia. She believes in preventative and holistic eyecare, and has a special interest in eye health and contact lenses.

# Happily Sold and Let...

Last year we helped 465 people (along with a few dogs, cats and birds) buy, sell and rent out their homes in the area.

We sold 43 and Let 29 Properties in the Prospect Council area.
