

Staples Court- Parking Control Changes Proposed by Council

Note:

- Removal of the Kiss and Drop on Staples Court is proposed due to turning issues, and to separate school and construction traffic. Upon completion of the proposed site works a Kiss and Drop for Rosary School will be provided onsite with entry via Gladstone Road and exit via Staples Court.
- The CMP provides a plan to manage the existing 1P carparks on Staples Court and ensure parking availability for residents, therefore these are proposed to remain unchanged.
- The proposed parking control signage changes are for the duration of construction. Residents will be consulted regarding possible long term parking control changes closer to the end of the schools works.

Maintenance Line marking and signage works are proposed
