

# Churchill Road Streetscape Stage 3

## Newsletter – October Edition

---

### What to expect

As previously advised by Council, Churchill Road Streetscape, Stage 3 will extend from Gurr Street to Livingstone Avenue and represents the final stage of Council's upgrade of Churchill Road.

Stage 3 has an estimated value of \$1.5 million and will comprise of high quality landscaping, traffic management upgrades, stormwater management, new street furniture, improvements for pedestrians, disability access compliance including pram ramps and new pedestrian refuges in Churchill Road.

During the works, work zone traffic management will be implemented including necessary speed restrictions. This is of course mandatory for the health and safety of the workers on site as well as for traffic and pedestrians, however disruptions will be kept to a minimum.

### Funding

To assist Council in delivering the works, the Minister for Planning through the Department for Infrastructure and Transport (DIT) has contributed 50% of the capital cost up to \$750,000. Council is very grateful for this contribution and is pleased to deliver this project for the greater benefit of our community.

### The Contractor

The contract for the Churchill Road Streetscape, Stage 3 has been tendered and awarded to Nova Group Services. Nova has successfully completed similar works for City of Prospect including the reconstruction of Prospect Road Streetscape Stages 2, 3 and 4 and Churchill Road Streetscape Stage 2.

### Timing

Preliminary works are scheduled to commence on site from Thursday 5 November 2020. The delivery of the project will be staged to minimise the impact to residents, business, traffic and pedestrian management.

Stage 1 of the construction phase will be between Gurr Street and Regency Road on the western side of Churchill Road. The scheduled completion date 30 April 2021.

### Communication

Throughout the project Council and the contractor will communicate regularly with property owners, businesses and residents as required to minimise disruption to their day to day operations. We will have close communications to manage access requirements for properties that will have driveway reconstructions as part of this project.

Regular updates of progress and upcoming works will be provided via Council's Website and Social Media.

Monthly newsletters will be distributed by Council in hard copy format and via our website, see link in Enquires below, to keep residents and stakeholders updated and informed of progress.

*Churchill Road Streetscape upgrades previously completed by Council adjacent to George Whittle Reserve.*

### Enquiries

For any enquiries about the project, please contact:

#### **City of Prospect:**

John Zunis - Project Coordinator – Capital Works.  
P: 8269 5355 (Monday to Friday 9am to 5pm)  
E: [admin@prospect.sa.gov.au](mailto:admin@prospect.sa.gov.au)
